LAZY  
WINE MAKER

Natural  
wine

from us, Viña Echeverria

Hello!

We are Viña Echeverria, a family estate winery in Chile. We've been growing our own grapes and making wine since 1992, and we export to every corner of the world (over 30 markets).

In 2017 we made our first natural wine, and we haven't stopped!

Now it makes up a third of all our production.

Not only this, but we have very few pests, which makes for a near perfect environment for organic agriculture.

Our vineyards are located in the Valle de Curico, a fertile valley between the Andes mountains and the Pacific coastal mountains, with very diverse soil. The mountain and ocean breezes control temperature and regulate the sun during the long, hot summers, helping the vines to mature slowly and evolve flavours.

## WHAT IS THE DEFINITION OF NATURAL WINE?

There's no official definition of natural wine yet, but these are the regulations by which we make ours:

They are produced using sustainably farmed grapes

They are made without the addition of foreign yeasts, bacteria, sulphur, sugar or acid adjustments

They undergo no fining or filtration

Their packaging is 100% recyclable

# NATURAL and LOW INTERVENTION WINE LIST
