

VINA ECHEVERRIA

(IN A NUTSHELL)

WHO ARE WE?

Behind our wines there is our family, prominent in Chilean agriculture since 1700 and pioneers in grape growing since 1930. A sustainable estate winery fully owned and managed by the Echeverria family, our shared passion for winemaking and search for excellence combine with a total commitment to our customers' satisfaction.

WHERE ARE WE?

Located in the Curico Valley, Chile's wine heartland, this privileged viticultural zone is ideally suited to produce healthy plants and grapes, with its cold nights, warm days, intense sunlight and long growth season. Here diversity is king, thanks to the cooling influence of the oceanic breezes and the proximity to the Andes Mountains.

OUR WINES

Our 65 hectare sustainable estate is planted with 8 different grape varieties and all our grapes are organically produced. We produce 5 collections and a total of over 30 wines, which range from varietal wines to some of Chile's most prestigiously awarded artisanal wines.

OUR WINEMAKING PHILOSOPHY

Roberto Echeverria Jnr has been the Chief Winemaker at Vina Echeverria since 2001 and is supported by a young team of winemakers from both Chile and Europe. In this way, he is able to ensure the consistency in quality year after year which all our customers depend upon, as well as bring innovation and passion to the winemaking team.

Our winemaking mission is to use our long history of family expertise to craft elegant, best-in-class wines, which are expressive of our cherished landscape. Inspired by our French family heritage, Echeverria's signature style produces wines that are stylistically European but with New World intensity.

SUSTAINABILITY & QUALITY ASSURANCE

A harmonious and respectful relationship with our environment has always been part of Vina Echeverria's culture and we are proud to have been awarded Sustainability status by the Wines of Chile organization.

Our ISO 9001-ISO 22000 certification ensures that our products meet international standards' demanding requirements for quality.

WHY ECHEVERRIA WINES?

Because your clients are demanding, right?

- i. consistency in quality year after year
- ii. award-winning
- iii. diverse and extensive range
- iv. organically grown grapes from a sustainable winery
- v. estate family winery
